We’re pleased to announce a continuing education program for our colleagues. Providing current research and updates to enhance treatment for our patients.
CONTINUING EDUCATION PROGRAM

PERIODONTAL REGENERATIVE STRATEGIES
Richard Kao, DDS, PhD

This lecture will summarize the findings from the 2014 AAP Periodontal Regeneration Symposium. In situations such as intrabony and furcation defects, treatments are available to regenerate lost periodontium.

Dr. Kao practices in Cupertino, California and teaches as Clinical Professor at both UCSF and UOP Dental Schools. Dr. Kao is Past President of the California Society of Periodontists. His clinical research is on the use of biologics in periodontal regeneration and implant site preparation.

PROGNOSIS FOR THE PERIODONTALLY COMPROMISED TOOTH
Thomas J. Kepic, DDS, MSD

Establishing an accurate periodontal prognosis is paramount to case success. Prognosis is often thought of as being “static,” established once, and never to change. This course will show both short and long-term cases where prognosis has changed during therapy.

Dr. Kepic is a Diplomate of the American Board of Periodontology. Dr. Kepic is a Past President of the California Society of Periodontists and the Western Society of Periodontology. Dr. Kepic has lectured extensively and maintains a private practice in Upland, California.

OCTOBER 14, 2016 4.0 CE

THE THINGS I WANT MY HYGIENIST TO KNOW IN AN HOUR
PKevin Chen, DMD, MS

This presentation will include basic information about dental implants. Discussion will include day to day complications with dental implants along with an overview on dental implant maintenance.

Dr Kevin Chen is a Diplomate of the American Board of Periodontology. Dr. Chen is the Treasurer of the California Society of Periodontists. Dr. Chen is currently in private practice in the Sacramento valley and serves as a clinical instructor at the Mare Island Veteran’s Administration.
