

Sun, Sand, Saving Teeth & Implants

held in conjunction with the

2019 Annual Meeting

April 6-7, 2019

The Ritz Carlton Laguna Niguel

An Invitation From The Board

Dear Friends:

On behalf of The California Society of Periodontists' Board of Directors, I would like to personally invite you to attend the 2019 Annual Meeting titled, "Sun, Sand, Saving Teeth & Implants" on April 6 and 7th, 2019.

The meeting is exciting because it encompasses various topics that are relevant to periodontists in today's perio practice. Day one will focus on advances in periodontal regeneration, innovative management with laser technology as well as our continual exploration of the relevance of medicine in periodontics. Day two will focus on peri-implantitis, computed tomography and review of periodontal and implant legal cases. The 2019 main podium speakers will include nationally and internationally recognized periodontists, a dental radiologist, and a malpractice expert - Drs. Dan Holtzclaw, Samuel Low, Preeti Desai, Brian Mealey, David Hatcher, Paul Rosen and Art Curley, JD.

The meeting will be held at the Ritz Carlton Laguna Niguel at Dana Point. This 5-Diamond resort is steeped in luxury and beauty. The California Society of Periodontists negotiated to offer our attendees the best rates to visit this magnificent property overlooking the Pacific Ocean.

Don't miss this opportunity to attend an exceptional educational seminar and reward yourself with the splendor of the Ritz Carlton Laguna Niguel. Bring your golf clubs to join in an informal golf fun on Friday and looking forward to seeing you all at the 2019 Annual Meeting!

Sincerely,
Kevin Chen DMD MS
President-Elect, California Society of Periodontists
2019 Annual Meeting Chairman

Schedule of Events

Annual Meeting Agenda

FRIDAY APRIL 5, 2019

Golf Tournament Event TBA

SATURDAY APRIL 6, 2019

7:30am - 8:00am	Continental Breakfast with Exhibitors
8:00am - 10:00am	The Use of Regenerative Materials to Enhance Surgical Performance and Outcomes This course will discuss a variety of therapies for regeneration around teeth and dental implants and will describe protocols for immediately loaded full arch dental implants. <i>Dan Holtzclaw, DDS, MS</i>
10:00am - 10:30am	Break with Exhibitors
10:30am - 12:00pm	Innovative Management of Periodontal & Implant Conditions with Laser Technology This course will be a presentation on procedures from managing both moderate to severe periodontitis to peri-implantitis with case reports that demonstrate accelerated healing. <i>Preety Desai, BSc, DDS</i> <i>Samuel Low, DDS, MS, MEd</i>
12:00pm - 1:30pm	Awards Luncheon
1:30pm - 4:30pm	The Oral-Systemic Connection in Daily Dental Practice This course will review the current status of the "periodontal-systemic" connection, with a primary focus on providing evidence-based answers to clinically relevant questions on these relationships. <i>Brian L. Mealey, DDS, MS</i>
2:30pm - 2:50pm	Break with Exhibitors
	Social Evening Event TBA

SUNDAY APRIL 7, 2019

7:30am - 8:00am	Continental Breakfast with Exhibitors
8:00am - 10:00am	The Treatment of Peri-implantitis: When Is It Advisable? Can It Be Made Predictable? This course will explore some of the emerging risks for peri-implantitis and strategies to prevent this. Methods for successfully treating this problem will also be presented. <i>Paul S. Rosen, DMD, MS</i>
10:00am - 10:30am	Break with Exhibitors
10:30am - 12:30pm	Power of Computed Tomography This course will discuss how Cone Beam CT can reveal hidden anatomy and disclose important anatomic variations that can't be visualized on traditional, panoramic and cephalometric projections. <i>David C. Hatcher, DDS, MSc, MRCD ©</i>
12:30pm - 1:15pm	Lunch
1:15pm - 3:15pm	Periodontal and Implant Legal Cases This course will review how dynamics in periodontal therapy have created issues of legal liability from complications and injuries not generally associated with traditional periodontal therapy and will provide tips on claims avoidance. <i>Arthur W. Curley, JD</i>
3:30pm	Meeting Adjourned

Program Subject to Change

Education Program

The Use of Regenerative Materials to Enhance Surgical Performance and Outcomes

Dan Holtzclaw, DDS, MS

The advent of new regenerative materials provide clinicians with innovative tools to better meet the needs of patients. This lecture will discuss a variety of therapies for regeneration around teeth and dental implants and will describe protocols for immediately loaded full arch dental implants.

Dan Holtzclaw, DDS, MS, is Chief Executive Officer of DIA Dental Implant Centers. Dr. Holtzclaw has published over 50 peer reviewed journal articles relating to various aspects of periodontics and implant dentistry and provided over 100 lectures worldwide. He has been named a Leader in Continuing Dental Education by Dentistry Today for 12 consecutive years (2007-2018). Dr. Holtzclaw is a Diplomate of both the American Board of Periodontology and the International Congress of Oral Implantologists. He currently serves as the Co-Editor-in-Chief of the Journal of Implant & Advanced Clinical Dentistry, and an editorial board member of Clinical Advances in Periodontology.

Innovative Management of Periodontal and Implant Conditions with Laser Technology

Preeti Desai, BSc, DDS

The global expansion of procedures from managing both moderate to severe periodontitis to peri implantitis will be presented in a series of case reports with scientific justification demonstrating accelerated wound healing. Pearls will be provided to market the “techno” niche practice in today’s competitive environment. Emphasis will be placed on patient related outcomes to gain trust and focus on the referring dentist.

Dr. Desai is the first Canadian periodontist implementing the all tissue laser into her periodontal practice since 2006. She has called Kamloops her home since 1996 and has over 12 years postgraduate training. Dr Desai has received degrees from all 3 major Canadian Universities: BSc from the University of Toronto, DDS from McGill University and a GPR from the Hospital for Sick Children in Toronto. Dr. Desai leads the Kamloops Spear Study Club, lectured internationally and a published author in Periodontics and Laser Periodontal Surgeon.

Innovative Management of Periodontal and Implant Conditions with Laser Technology

Samuel Low, DDS, MS, MEd

The global expansion of procedures from managing both moderate to severe periodontitis to peri implantitis will be presented in a series of case reports with scientific justification demonstrating accelerated wound healing. Pearls will be provided to market the “techno” niche practice in today’s competitive environment. Emphasis will be placed on patient related outcomes to gain trust and focus on the referring dentist.

Dr. Low is Professor Emeritus, University of Florida, Associate faculty member of the Pankey Institute with 30 years of private practice experience in periodontics, lasers and implant placement. He is Past President of the American Academy of Periodontology and was selected “Dentist of the Year” by the Florida Dental Association, Distinguished Alumnus by the University of Texas Dental School, Gordon Christensen Lecturer Recognition Award, Past President of the Florida Dental Association and past ADA Trustee. Dr. Low is Chair of the Dental Professional Advisory Board, BIOLASE.

The Oral - Systemic Connection in Daily Dental Practice: Our Patients Are Asking About It; What Are We Telling Them? - Brian L. Mealey, DDS, MS

This lecture reviews the current status of the “periodontal-systemic” connection, with a primary focus on providing evidence-based answers to clinically relevant questions on these relationships.

Brian Mealey, D.D.S., M.S., is currently the Graduate Program Director in the Department of Periodontics at the University of Texas Health Science Center at San Antonio. He served 21 years in the United States Air Force as both a general dentist and a periodontist. He was the Chair of the Department of Periodontics at Wilford Hall Medical Center in San Antonio and the Program Director of the Air Force Periodontics Residency. Brian is a Diplomate of the American Board of Periodontology, and a former Director of the Board as well as a former Trustee of the AAP. He is co-editor and author of two textbooks in periodontics and has published over 100 articles and abstracts in the scientific literature with a focus on both periodontal medicine and implant dentistry. Dr. Mealey maintains an active clinical practice in periodontics and implantology.

Education Program

The Treatment of Peri-implantitis: When Is It Advisable? Can It Be Made Predictable?

Paul S. Rosen, DMD, MS

Dental implants have revolutionized the way that we treat our patients today. Implants are not immune to complications and peri-implantitis is a disease entity that threatens their survival due to bone loss advancing beyond physiologic modeling/remodeling. This lecture will explore some of the emerging risks for peri-implantitis and strategies to prevent this.

Dr. Paul Rosen maintains a full-time private practices in both Yardley, Pennsylvania and New York City, New York limited to periodontics, surgical implant placements and regenerative therapy. He also has appointments as Clinical Professor of Periodontics at the University of Maryland Dental School and Adjunct Professor at James Cook University in Cairns, Australia. Dr. Rosen is a Diplomate of the American Board of Periodontology. Dr. Rosen is honored to have been named the 2015 recipient of the American Academy of Periodontology's prestigious Master Clinician Award and also to have received the NSP Isidor Hirschfeld Award for Clinical Excellence.

Power of Computed Tomography

David C. Hatcher, DDS, MSc, MRCD ©

Cone Beam CT can reveal hidden anatomy and disclose important anatomic variations that can't be visualized on traditional periapical, panoramic and cephalometric projections. Failure to recognize key these anatomic features may lead to sub-optimum diagnosis, treatment planning and treatment outcomes. Selected anatomic boundaries, alveolar ridge and jaw dimensions, TMJs and airway, will be discussed.

Dr. Hatcher entered the graduate program in radiology at the University of Toronto and was granted a specialty degree in Oral and Maxillofacial Radiology in 1982 and a M.Sc. in 1983. His thesis topic dealt with radiology of temporomandibular disorders. Presently Dr. Hatcher is in private practice in Sacramento, California and has faculty appointments as Clinical Professor at the University of California San Francisco, University of California Los Angeles, University of California Davis, University of the Pacific and Roseman University of Health Sciences.

Review of Periodontal & Implant Legal Cases

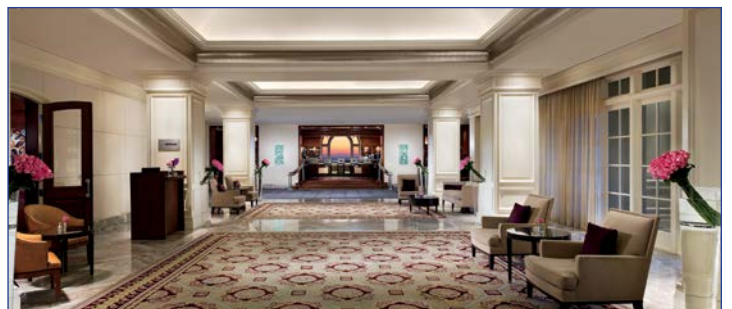

Arthur W. Curley, JD

Periodontal therapy has evolved from treatment of gingival and osseous defects for the preservation of teeth, to the removal of teeth and replacement with dental implants for the preservation of bone and improved function, as well as aesthetics. Those dynamics have created issues of legal liability for complications and injuries not generally associated with traditional periodontal therapy. This course will address those changes, the legal impact, and provide tips on claims avoidance.

Mr. Curley is a senior trial attorney in the California healthcare defense firm of Bradley, Curley, Barrabee & Kowalski, PC. He is currently an Assistant Professor of Dental Jurisprudence at the Arthur A. Dugoni School of Dentistry in San Francisco and an Adjunct Faculty Professor at the University of California, San Francisco. As a trial attorney, he has been defending doctors for over 40 years and has presented risk management courses throughout the United States and Canada. He is an associate of the American Board of Trial Advocates. Mr. Curley has published several articles on risk management and authored chapters in numerous text books on oral surgery, endodontics and periodontics.

The California Society of Periodontists is a licensed continuing education provider with the State of California.

Hotel Information

A LAGUNA BEACH RESORT WHERE LUXURY IS INFUSED WITH THE PLAYFUL, RELAXED SPIRIT OF SOUTHERN CALIFORNIA. EXPERIENCE COASTAL LIVING AT THIS LAGUNA BEACH RESORT.

Overlooking the Pacific Ocean atop a seaside bluff, The Ritz Carlton Laguna Niguel invites hotel guests to experience Laguna Beach fully. The resort embraces its Southern California roots at every opportunity, from sea-inspired treatments at the spa and locally sourced restaurant menus to ocean-view accommodations and family friendly eco-adventures.

**The Ritz Carlton Laguna Niguel
One Ritz-Carlton Drive
Dana Point, CA 92629**

CSP Group Rates are subject to availability at the time of reservation. Garden/Pool view \$369 or Coastline view \$469 plus tax. Daily resort fee \$10. Valet parking \$30.

Registration in the conference is required to reserve a room. To make a reservation, contact, Laura Purcell at 951-371-4321 or Email laura@calperio.org.
