

# ANNUAL MEETING

*The California Society of Periodontists  
Invite You to Join Us*

*CSP Yosemite  
May 3 - 5, 2024*

# EDUCATION PROGRAM

Dear Colleagues:

I cordially invite you to attend the California Society of Periodontists Annual Meeting May 3-5, 2024 at the scenic Tenaya Lodge at Yosemite. It's that time of year again when we must evaluate our past years' performance and ask ourselves if we are providing the latest cutting-edge treatment for our patients. Is your practice reaching revenue goals? CSP members receive special incentives and discounts off registration. Our guest speakers will uncover the latest surgical techniques and treatments including moderate sedation, utilizing bioactive biomaterials, augmentation of severely deficient ridges, and demystifying cannabidiol. Each talking point is sure to enhance your patients' overall care.

If there was ever a time to mix business with pleasure this would be it! The Tenaya Lodge offers tours, activities, and the opportunity to explore the National Park. Yosemite is a land of unparalleled grandeur. It is best known for its massive cascading waterfalls, giant granite domes, ancient giant Sequoia trees, and vast wilderness spanning over 700,000 acres. Enjoy the guided tour of the sunrise hike before networking with your peers or finish the day with a flashlight hike.

Be sure to stop by all the vendors to check out what new and innovative developments have been introduced this year. Our commitment and focus are on simplifying our workload and always improving patient treatment. We look forward to seeing all our loyal members as well as welcoming new faces. We are confident this will be our most memorable meeting yet!

Warm regards,

Erik Sahl DDS, MSD  
President, California Society of Periodontists  
Diplomate, American Board of Periodontology

12:00 pm - 7:00 pm

Friday May 3, 2024

## Moderate Sedation Emergencies & Medications for 2024

Dentists who offer oral or IV moderate sedation know what it is like to plan and prepare for the fearful and anxious patients. A great deal of responsibility is placed on our shoulders for staying up to date with the knowledge of medications, pharmacology, and emergencies. It is essential for us to consistently review the 13 emergencies and prepare our teams for navigating these situations. We will review the basic concepts and introduce some tips and tricks for navigating the 13 emergencies as suggested by the California Dental Board. We will review the pharmacology and administration of moderate sedation medications for both oral and IV sedation practices and help make your sedation and patient experiences successful.

### Gina Salatino, DDS, FAGD

Gina Salatino is a Fellow in the Academy of General Dentistry and Fellow in DOCS Education. Dr. Salatino published a Dental Reference Book, "Medications for Intravenous Sedation in the Dental Office". Dr. Salatino is a conscious sedation consultant, lecturing faculty and clinical director and is a conscious sedation office permit inspector for the Dental Board of California. She is also a professional musician in the band called Some Fear None. She is a member of the American Academy of General Dentistry, California Dental Association, Sacramento Dental Society and American Dental Society of Anesthesiology. Dr. Salatino maintains a private practice in Rocklin, California.

# EDUCATION PROGRAM

Saturday May 4, 2024

8:00 am - 9:10 am

## Optimized Revenue: Adapting to Change in Periodontics

This interactive session is designed to navigate the ever-evolving dental industry. Participants will gain an understanding of factors as technology advancement, supply and demand fluctuations, DSO influence, third-party involvement, and global events impacting our profession. The course will explore laser cutting-edge technology as a minimally invasive tool in periodontal and implant disease management, however, adding value added revenue from esthetics. The course will employ real-time audience response systems and polling for interactive learning. Overall, it positions periodontists as comprehensive care coordinators, patient marketers, and skilled clinicians, responding to a changing industry.

### Samuel B Low, DDS, MS, MEd

Trustee.

Dr. Low is Professor Emeritus, University of Florida, Associate faculty member of the Pankey Institute with 30 years of private practice experience in periodontics, lasers and implant placement. He is Past President of the Academy of Laser Dentistry and Past President of the American Academy of Periodontology and was selected "Dentist of the Year" by the Florida Dental Association, Distinguished Alumnus by the University of Texas Dental School, Gordon Christensen Lecturer Recognition Award, Past President of the Florida Dental Association and past ADA

9:10 am - 10:20 am

## Up Your Biologics Game for More Favorable Outcomes: 10 ways to Utilize Bioactive Biomaterials Within your Periodontal Practice

Learn about the indications and applications for de-epithelialized dehydrated amnion-chorion allograft, including guided bone and tissue regeneration, socket preservation and ridge augmentation, both surgical and non-surgical, and donor/recipient site adjunctive applications. Witness the impressive healing capabilities, in addition to a multitude of data and documentation demonstrating the unparalleled biocompatibility of this unique and remarkable allograft tissue.

### Curry Leavitt DMD, MS

Dr. Leavitt graduated cum laude from Temple University School of Dentistry where he received numerous awards in research and clinical achievement. Dr. Leavitt received dual certificates in Periodontology from the University of Alabama and the Birmingham Veterans Affairs hospital. He received the UAB research fellowship and earned a masters degree in clinical dentistry comparing bone density values using cone beam CT images and histological bone biopsies. Dr. Leavitt enjoys teaching and has lectured to large groups concerning the effects of periodontal disease on systemic health and ridge augmentation techniques. He is also an adjunct professor at the University of Nevada School of Medicines dental GPR program. Dr. Leavitt has interests in esthetic gingival surgery, bone augmentation, and dental implant surgery.

# EDUCATION PROGRAM

Saturday May 4, 2024

10:55 am - 12:05 pm

## Enamel Matrix Derivatives (EMD) - Implementing Proven Biologics for Optimal Patient Outcomes

The implementation of biologics into contemporary periodontal therapy has enabled treatment outcomes previously considered unobtainable. EMD is one of the most efficient and predictable solutions available for clinicians with a myriad of clinical applications. The use of EMD can aid patients in re-establishing oral health and comfort while regaining both improved function and esthetics. This discussion will include an overview of EMD, its proposed mechanisms of action and recommended guidelines for implementation.

### Scott Gruwell, DDS, MS, MBA

Dr. Gruwell is a board-certified periodontist actively involved in treating the full scope of surgical implant therapy and all phases of periodontics. Additionally, a periodontics residency program director with a demonstrated history of successfully executing a wide variety of working in private practice, higher education and the military (United States Air Force). Skilled in Dentistry, Periodontics, Healthcare and Healthcare Management, Clinical Research, and Professional Education. Strong professional with an M.S. in biomedical sciences and an M.B.A. focused on executive leadership

12:05 pm - 1:05 pm

## Prosthetic Implant Complications: Causes, Prevention, and Management

This presentation will address the most common prosthetic implant complications in partially edentulous treatments including loose / stripped / broken screws, progression of open contacts and short anterior crowns, "screwmentable" complications, cement induced peri-implantitis, and more. Each complication topic will cover frequency of occurrence, common causes, strategies for prevention, and management.

### Todd R. Schoenbaum, DDS, MS

Todd Schoenbaum is Professor at the Dental College of Georgia where he trains residents and students in implant restorations and clinical research. He has published over 60 papers, 10 chapters, and two textbooks. He is the recipient of the scientific writing award from the JPD. He is the Editor-in-Chief of Dentistry Review. He has a master's in clinical research from the UCLA School of Medicine, and is a Fellow and Diplomate of the Academy of Osseointegration. Dr. Schoenbaum has been invited to present his clinical and scientific work at conferences worldwide. His clinical practice is limited to fixed implant restorations.

# EDUCATION PROGRAM

Sunday May 5, 2024

8:00 am - 9:10 am

## 3D Facially Driven Digital Workflows

Are you tired of inefficient restorative workflows, multiple try-ins that reduce production and increase frustration in your team and patients? It's time we put the FACE back into treatment planning! 3D facially driven treatment plans will empower you and your team to deliver highly esthetic restorations more efficiently, with more predictable outcomes, creating happier patients and practice growth. This program will help participants understand how to evaluate patients through simplified, systematic documentation using 3Dimensional data.

### J. Arthur Mirelez, Jr., DDS, FICOI, FAGD

Dr. Mirelez is a graduate of the Misch Implant Institute and a Mentor & Clinical Instructor at the Kois Center and is a Fellow ICOI and Fellow AGD. His passion for dental technology has driven him to research, develop, and train dentists how to implement digital dentistry to better serve patients. Dr. Mirelez's lectures help dentists optimize their practices by empowering team members to embrace digital technology to maximize output predictably and efficiently. Dr. Mirelez maintains a private practice in Clovis, CA that focuses on revitalizing patients' lives by improving their oral health and wellness. Integrating a full in-house digital lab complete with 3D facial smile design technology, 3D printing, and milling has helped the practice to stand apart and flourish.

9:10 am - 10:20 am

## Augmentation of the Severely Deficient Ridge: Simplifying the Challenges

This presentation will discuss the challenges related to ridge augmentation. Methods used to create the conditions necessary for augmentation as well as their limitations will be reviewed. How 3D printed biomaterials can be used to assist in successful augmentation.

### Israel Puterman, DMD, MSD

Dr. Israel Puterman, originally from Montreal, Canada, received his DMD from Boston University. He then attended Loma Linda University, where he received two residency certificates: one in Implant Dentistry and one in Periodontics, as well as a Master of Science in Dentistry. As part of his dual residency training, he obtained expertise in the surgical, prosthetic and laboratory phases of complex implant cases. He is a published author in various journals, including the International Journal of Periodontics and Restorative Dentistry, Compendium, Journal of Prosthetic Dentistry and the Journal of Prosthodontics. He is co-founder of Surgical Influence, an educational organization focused on teaching colleagues predictable surgical techniques and has been honored by colleagues as a Best of Washingtonian Periodontist since 2011.

# EDUCATION PROGRAM

Sunday May 5, 2024

10:55 am - 12:05 pm

## Minimally Invasive Laser Assisted Protocols: Arrest Periodontitis and Peri-implantitis to Prolong the Survival of Teeth and Implants

As periodontists and dental hygienists, our grass-roots mission and responsibility to our patients is to correctly diagnose and treat their periodontal and peri-implant diseases with an unwavering commitment to help them achieve and maintain optimal oral health, keeping dentitions and implants as intact as possible for as long as possible.

### Dan Indech, DDS

Dr. Indech received his DDS degree and AEGD from the University of Western Ontario in London, Canada and his specialty training and board certification in Periodontics at the University of British Columbia in Vancouver. He has maintained a full-time private practice focused on diagnosing and treating periodontal conditions and performing dental implant reconstruction. Throughout his career, he has embraced and implemented digital technology and less invasive treatment strategies in all aspects of his practice. He is a certified instructor for the Institute of Advanced Laser Dentistry in Los Angeles.

12:05 pm - 1:05 pm

## CBD Dentistry: Demystifying and Understanding Cannabidiol [CBD]

CBD is everywhere. Grabbing a latte? Get it boosted with CBD. Indulging in a massage? Upgrade to include CBD oil. Need some chapstick? Pick the organic, local, CBD-infused lip balm. This course is an evidence-based review of CBD and how it relates to periodontics — primarily focused on cannabinoids, the Endocannabinoid System, and inflammation. This course will review what CBD is and how it relates to Marijuana and how to communicate with and manage regularly using CBD.

### Caroline Arceo, DMD, MS

Dr. Arceo is Board certified in Periodontics and Implantology. She completed her DMD at Oregon Health & Science University received her Masters for assessing the prevalence of periodontitis among adult Cannabis users in Portland, OR. Dr. Arceo is a member of the Dr. Arceo runs an independent hygiene study club on the Central Coast and lectured on Cannabis and oral health for the past 6 years. She maintains a private practice in San Luis Obispo, California.

# MEETING AGENDA

Agenda At A Glance	
Friday May 3, 2024	
12:00pm - 7:00pm	Moderate Sedation Emergencies & Medications for 2024 - Dr. Salatino
3:00pm - 3:30pm	Refreshment Break
Saturday May 4, 2024	
7:00am - 1:00pm	Exhibits Open
7:00am - 8:00am	Breakfast with Exhibits
8:00am - 9:10am	Optimized Revenue: Adapting to Change in Periodontics - Dr. Low
9:10am - 10:20am	Up Your Biologics Game for More Favorable Outcomes - Dr. Leavitt
10:20am - 10:55am	Refreshment Break with Exhibits
10:55am - 12:05pm	Implementing Proven Biologics for Optimal Patient Outcomes - Dr. Gruwell
12:05pm - 1:15pm	Prosthetic Implant Complications - Dr. Schoenbaum
1:15pm - 5:30pm	Group on own or Group Activity TBA
5:30pm - 7:00pm	Reception TBA
Sunday May 5, 2024	
7:00am - 12:30pm	Exhibits Open
7:00am - 8:00am	Breakfast with Exhibits
8:00am - 9:10am	3D Facially Driven Digital Workflows - Dr. Mirelez
9:10am - 10:20am	Augmentation of the Severely Deficient Ridge - Dr. Puterman
10:20am - 10:55am	Refreshment Break with Exhibits
10:55am - 12:05pm	Minimally Invasive Laser Assisted Protocols - Dr. Indech
12:05pm - 1:15pm	Demystifying & Understanding Cannabidiol (CBD) - Dr. Arceo
1:15pm	Meeting Adjourned

**On site and nearby activities include:** Hiking; Rock Climbing; Fly Fishing; Horseback Riding; Mountain Biking; Yosemite 360° Tours; Archery; Indoor and Outdoor Pools and Ascent Spa. CSP will organize one or more group activities, which will be announced closer to the meeting date.

# HOTEL INFORMATION

## Tenaya Lodge at Yosemite

Tenaya at Yosemite is a full-service four-diamond resort nestled into the Sierra National Forest. It's just 2 miles from Yosemite National Park's South Gate Entrance. That puts it only minutes from the Mariposa Grove of Giant Sequoias. Tenaya at Yosemite offers several different types of lodging options. First, you'll find hotel rooms and spacious modern suites at Tenaya lodge. That keeps you close to services and amenities like restaurants, pools, and other activities. The Cottages are a short walk from the Tenaya Lodge. These rooms have private entrances, outdoor sitting areas, and fireplaces. For even more privacy, try the Explorer Cabins at Tenaya. These two-bedroom cabins offer a more secluded experience with a comfortable living room and a private deck. Tenaya Lodge at Yosemite is located 55 miles north of Fresno International Airport on California State Highway 41. Self-parking is included with daily resort fee. The lodge has eight Tesla Superchargers and two Level-2 charging stations. Learn about Tenaya Lodge at Yosemite at <https://www.visittenaya.com/>

Tenaya Lodge at Yosemite  
1122 Highway 41, Fish Camp, CA 93623

Phone Reservations: 800-635-5807 Or Online at: [CSPGroupTenaya](https://www.visittenaya.com/)

Group room is subject to availability at the time of reservation. *Daily \$20 resort fee + taxes applied to overnight room rates. Resort is pet friendly, though some restrictions apply.*

Standard Room: \$269/night | Cottage Room: \$289/night | Explorer Cabin: \$599/night

# California Society of Periodontists 2024 Annual Meeting Registration Form
